CONTENTS

Introduction 1

Analysis and distribution of dissolved Fe

Determination of iron in seawater by flow injection analysis using in-line preconcentration and spectrophotometric detection
C.I. Measures, J. Yuan and J.A. Resing 3

Iron distributions in surface waters of the south Atlantic
R.T. Powell, D.W. King and W.M. Landing 13

Theoretical speciation

The speciation of Fe(II) and Fe(III) in natural waters
F.J. Millero, W. Yao and J. Aicher 21

Redox speciation and cycling

Iron(II) in rainwater, snow, and surface seawater from a coastal environment
G. Zhuang, Z. Yi and G.T. Wallace 41

Measurement of the redox speciation of iron in seawater by catalytic cathodic stripping voltammetry
M. Gledhill and C.M.G. van den Berg 51

Photochemical redox cycling of iron in coastal seawater
W.L. Miller, D.W. King, J. Lin and D.R. Kester 63

Diel variations in iron speciation in northern Australian shelf waters
T.D. Waite, R. Szymczak, Q.I. Espey and M.J. Furnas 79

Iron reduction by photoproduced superoxide in seawater
B.M. Voelker and D.L. Sedlak 93

Reactivity of various types of iron(III) (hydr)oxides towards light-induced dissolution
B. Sulzberger and H. Laubscher 103

Influence of organic complexation on the speciation of Fe(III)

Complexation of iron(III) by natural organic ligands in the Central North Pacific as determined by a new competitive ligand equilibration/adsorptive cathodic stripping voltammetric method
E.L. Rue and K.W. Bruland 117

Evidence for organic complexation of iron in seawater
C.M.G. van den Berg 139

Complexation of Fe(III) by natural organic ligands in the Northwest Atlantic Ocean by a competitive ligand equilibration method and a kinetic approach
J. Wu and G.W. Luther III 159

Voltammetric estimation of iron(III) thermodynamic stability constants for catecholate siderophores isolated from marine bacteria and cyanobacteria
B.L. Lewis, P.D. Holt, S.W. Taylor, S.W. Wilhelm, C.G. Trick, A. Butler and G.W. Luther III 179

Biological implications
Iron uptake and growth limitation in oceanic and coastal phytoplankton
W.G. Sunda and S.A. Huntsman 189
Physiological changes in the coastal marine cyanobacterium *Synechococcus* sp. PCC 7002 exposed to low ferric ion levels
C.G. Trick and S.W. Wilhelm 207
Response of equatorial Pacific phytoplankton to subnanomolar Fe enrichment
S. Takeda and H. Obata. 219
Effects of nitrogen and iron enrichments on phytoplankton communities in the northwestern Indian Ocean
S. Takeda, A. Kamatani and K. Kawanobe 229
